## INTRODUCTION

This is the second in a series of bulletins designed to catalog the accessions of the Mantor Library at Farmington State College in the field of special education. During the school year 1966-1967 the Department of Special Education expects to issue the complete holdings of the library pertaining to special education study.

Behavioral Disorders consists of holdings in both social and psychological maladjustments. Some related sociological and psychological materials have been included in this listing. However, it is expected that the majority of materials which would be considered as related will be issued in a separate bulletin - Exceptional Children: Related Psychological and Sociological Materials. This bulletin will be issued later in the series.

The Department of Special Education now expects that this bulletin as issued will remain constant for some time. In order to update this bulletin a supplement will be issued within one year that will list accessions to the Mantor Library from the time this bulletin is issued.

This listing contains only cataloged materials in the Mantor Library and does not presume to be an encompassing bibliography. Journal articles have not been included as projects are now under way in the Department of Special Education to issue long-term indexes of major periodicals in the field of special education.

The Department of Special Education is most grateful to Mrs. Marjorie Bragg and the staff of the Mantor Library for their assistance and support in this project.
